MEMORANDUM

TO:

Board of Commissioners

FROM:

Joseph Rivet, Drain Commissioner

RE:

Annual Report

DATE:

March 28, 2013

As required by law, enclosed is the Bay County Drain Commissioner's Annual Report. I am pleased to present you an update of our work on behalf of our staff. We have completed another very successful year and our financial position remains very strong.

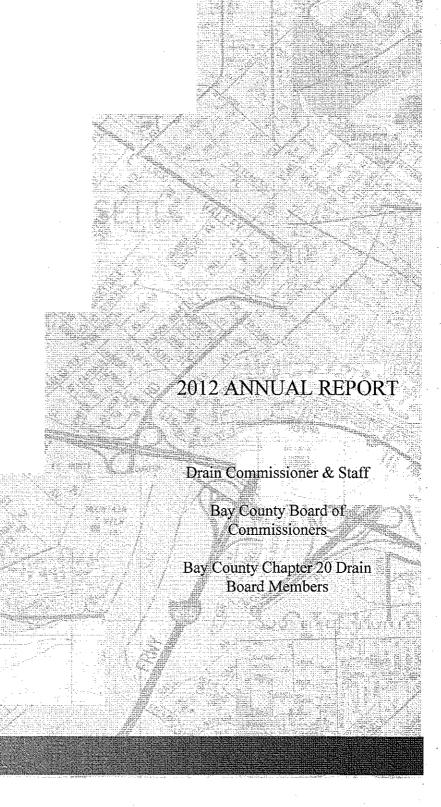

We provided one copy to the Chair of the Board and put the report on the County website under the Drain Commissioner's Office. We can easily produce a copy of the report if you would like one.

As I do each year, I must stress the quality of the staff of the Drain Commissioner's Office. As always, under the direction of Drain Board Members Don Tilley and Brandon Krause, we have continued to provide the equipment and tools they need to be more efficient and productive.

In addition to completing a number of projects during 2012, we have continued our work to improve water quality, beginning the implementation of a \$995,000 grant to improve the Kawkawlin River. Water quality remains a priority which includes the ongoing oversight of the Bay Area Storm Water Authority.

We look forward to working with the County Board of Commissioners, Township Officials and our stakeholders in 2013 on behalf of the residents of Bay County. Please do not hesitate to contact me if you have any questions or if our office can be of service to you.

JOSEPH RIVET rivetj@baycounty.net

515 CENTER AVENUE, SUITE 601 BAY CITY, MICHIGAN 48708-5127 drainoffice@baycounty.net PHONE (989) 895-4290 FAX (989) 895-4292 TDD (989) 895-4049 (HEARING IMPAIRED)

2012 Accomplishments

Projects

In 2012, the Drain Commissioner focused efforts on a significant number (20) of maintenance projects. Work was done in 12 townships. Examples include the Redy, Halstead, Tebo Erickson and Railroad. Efforts continued to replace failing headwalls and culverts in Bangor Township. Beyond these contracted projects, Drain Commissioner Staff carried-out smaller repairs, maintenance, spraying or brushing projects on dozens of drains throughout Bay County.

As always, the most important aspect of work on the Drain Commissioner's projects remained the approach taken to completing them. A strategy of utilizing creative and responsive methods to address project needs has been adopted.

Environmental/Storm Water Quality

In 2012, administration of the Bay Area Storm Water Authority remained a focus of environmental actions in the Office of the Bay County Drain Commissioner. This included continued implementation of the various pollution elimination and public education programs.

A substantial component of the NPDES program is public education. The Bay County Drain Office developed outreach efforts including bringing storm water quality education to residents in the urbanized area.

The Drain Commissioner was notified they were awarded a grant of \$995,504 to implement best management practices for water quality improvements to the Kawkawlin River. The grant will bring together various organizations and governmental agencies to complete the work over a 2.5 year period.

| | | | |
| | | | |

Equipment Replacement/Improvement

In the last several years, the Drain Office has upgraded and improved 95% of its equipment fleet. All necessary equipment has been purchased. A schedule of replacing vehicles and equipment has been implemented. In 2012 a new tractor with a boom arm cutter was purchased. In addition, pumps were replaced in the largest pump station in the County.

Soil Erosion & Sedimentation Control

The Drain Office issued or renewed 71 SESC permits in 2012. Each permit received the necessary oversight and inspection.

Community Outreach/Responsiveness

In 2012, the Drain Commissioner issued an annual report, making it available to all municipalities and other interested parties. Dialogs were maintained and an open informational policy remains in place in the Office of Drain Commissioner.

Dozens of residents of Bay County had contacted the Drain Office with Drain specific concerns in 2012. Each was responded to, most often after receiving a site visit. Although many issues could not be addressed by the Drain Commissioner, each contact was investigated.

2013 Goals and Objectives

Responsiveness

The Drain Office will continue efforts to be responsive to all requests for information. The goal of an initial response within 48 hours continues. This includes site visits and presentation of necessary permitting or petitioning information.

Community Information/Outreach

Building on the past successes, the Drain Commissioner's Office will continue to outreach to the community with information on its efforts. Mailings and neighborhood meetings have led to clear communication with residents on specific projects affecting them. These activities will continue to be a priority. The Drain Commissioner will also continue regular meetings with local officials, members of the farm community and environmental groups to seek input on the direction of the drain system.

Outstanding Projects

The Drain Commissioner's Office has three outstanding petitions that are not yet scheduled for work. These are the Kerr-Jammer-Szymanski, Wilcox and Hoppler Creek Drains. The approach on the Wilcox Drain will be modified to a more maintenance-type project. The intent is to address some of the issues without having to expend the \$1 million previously discussed. Engineering work has begun on a solution for the Kerr-Jammer-Szymanski which is heavily dependent on the Kawkawlin River. A plan will be completed in 2013.

Drain Maintenance Program

A substantial portion of the work done by the Office of the Drain Commissioner is considered maintenance. It is restoring drains to their original design. In 2013, it is anticipated that several drains will be cleaned through the maintenance process. These include the West Branch, Railroad, Tap & Grove, Hembling, Lower Keisel, Renner & Klauss.

Maintenance staff will continue to perform minor county-wide drain maintenance work. This includes jetting culverts, repairing wash-outs, removing obstructions, brushing and installing minor pipe projects. We will also continue our mowing and drain spray programs. These functions are provided at a reduced cost and are more efficient for residents.

| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |

Equipment Replacement Program

In an effort to make necessary upgrades and provide the necessary equipment to perform more functions, a number of equipment purchases have been made in the last three years. In 2013, we expect to upgrade the electrical system in the largest pump station, (approximately \$55,000)

2013 will see the continuation of an effort to review and upgrade pumps and electrical equipment at pump stations under Drain Office jurisdiction. Most of the equipment is decades old and a strategic approach to replacement is necessary.

Kawkawlin River Restoration:

The Bay County Drain Commissioner received a \$995,504 grant to implement improvements outlined watershed management plan for the Kawkawlin River. The grant involves a number of Best Management Practices for agriculture, septic tanks and erosion control.

During 2013 the Drain Commissioner will administer a grant to determine bank-full reference numbers for lake-plain areas of the State. The \$65,000 grant will improve our MDEQ permitting opportunities in the future.

Soil Erosion/Sedimentation Control

The Drain Commissioner will continue as the County Enforcement Agent for soil erosion and sedimentation control. The Drain Office has made minor modifications to the system for the efficient issuance and enforcement of SESC permits and will continue to operate the program within the original Drain Commissioner's budget, relieving the general fund of any costs for the program.

NPDES/Environmental

The Drain Commissioner's assumption of responsibility to administer the NPDES Phase II permit for Bay County has altered the workload of the Drain Office. As much as 10% of staff time will now be dedicated to the program. The Office will manage the program efficiently, complying with all required components of the program and enhance the community's knowledge of the importance of storm water management.

In 2013, the Drain Commissioner will continue to administer the Bay Area Storm Water Authority. In addition to NPDES, the Drain Commissioner will focus on integrating environmental enhancements on all projects, reducing sedimentation and other pollutants.

Remonumentation Program

In 2013, the Drain Commissioner's office will continue to oversee the County's remonumentation program. Under the direction of Mark Basket, P.S. the Office will oversee State Grants that re-establish survey marks on section corners throughout Bay County.

Operational/Strategic

During 2013, the Drain Office will continue to improve its operation and approach to serving the community. Over the coming year, further implementation of additional responsibilities, as well as on going changes will be reviewed for efficiency.
